My name is Chasity Carpenter, I reside at 644 Sandwedge Drive with my husband Thomas Carpenter.

We will be residing here for up to 8 months a year.

I have a Degree in Accounting from the Northern University of Vermont with concentration in accounting information systems.

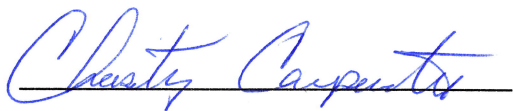

After interning at Morgan Stanley and acquiring my securities/investment licenses, I worked for the financial firm American Financial Resources as an individual, corporate and non-profit tax preparer, a Certified Internal Auditor and an IRS certified non-profit organization auditor. I was also a full-charge bookkeeper, payroll specialist and office manager.

Lily Lake is now our home. If I can contribute any of my skills to help it stay an affordable, solvent, well run community, I would like to do so.

Thank you for your consideration.

RESUME

My name is Sue Eisenhart, my husband and I live at 495 Par Dr. We have been a resident at Lily Lake for 19 years. During that time we have owned several properties, 6 houses & 2 RV lots.

I have been a licensed real estate agent for 11 years, selling primarily in Lily Lake. During this time I also ran the rental program for several years before it was discontinued. This made me very aware of the rules/regulations & by-laws & general information about the park.

I have a computer programming degree and was contracted to several GM facilities and VW/Audi managing large main frame computers for 18 years. I was responsible for the maintenance scheduling, customer support for the users, negotiating maintenance contracts for the systems, printer support and the updating of any hardware & software. I was on call 7/24 for any support issues. I was the interface between users & management whether it was for technical support or updating the systems to meet the needs of our users.

I have read the governing documents of Lily Lake and understand my obligations as a board member. I believe I would be an asset due to the fact I'm so familiar with the park, rules/regulations, rental & the overall history of the community.
